

This pin layout is based on the Boucher 1916 model of the *Flying Cloud* in the Boston Museum of Fine Arts and on George Biddecombe's 1849 book *The Art of Rigging*.

This layout shows the port side of the ship viewed from the starboard side for the main pin rails or the top side for the other pin rails (e.g. the fife rails at the base of the masts). The layout assumes the starboard side main rail pin arrangement is a mirror image of the port side.
